For simpler checkout - link your mobile.

Hi [Name removed]

Add your mobile number to your account and next time you're shopping on your phone or tablet, you can check out even faster with PayPal.

Here's how:

- Just log in to your account and add
- Then follow the steps to set up a 4 digit PIN.

After that you can use your mobile number and PIN to pay when you're shopping on your phone or tablet, instead of your email address and PayPal password.
